Warranty

BRP limited warranty covers the watercraft for one year.

*Electronic brake, neutral and reverse.

Feature Highlights

Equipped with Advanced Combustion Efficiency (ACE) technology, this powerful engine comes with a maintenance-free supercharger¹ and external intercooler and is optimized for regular fuel for lower fuel cost.

A narrow seat profile with deep knee pockets lets riders sit naturally and use the leg muscles to hold onto the machine for more control.

Provides handlebar-activated quick settings so riders can easily find the ideal trim for varying conditions.

A telescopic steering system that optimizes the experience for varying rider sizes.

Forgiving and nimble for a predictable ride in smooth and moderate water conditions.

Exclusive to Sea-Doo®, iBR® stops the watercraft sooner and provides more control and maneuverability at low speeds and in reverse.

Trailer (optional)

- Fully adjustable carpeted bunks (side-to-side/front-to-back) allow you to change bunk angles to fit all watercraft.
- Custom frame design requires less water to load and unload watercraft.
- Sealed maintenance-free wheel bearings for added peace of mind.
- All models are available with a galvanized frame for extended life in all weather conditions or in a painted black version, with or without Marine Jack.
- Move I Extended 1250 and Move II are also available in an aluminum frame, that delivers better corrosion resistance to significantly extend life of trailer.

Aluminum MOVE II

Aluminum MOVE I Extended 1250
